ROCKFORD, IL – Inland Power Group announced today that it will relocate its Rockford operations to 3736 11th Street, Rockford, Illinois 61109, effective November 24, 2008. It was formerly located at 3473 Merchandise Drive.

The new facility has 14 service bays and approximately 23,000 square feet under roof, handling up to three times the customer volume with ease. The parts inventory area will double, providing faster repair periods for Inland customers. It also features better accessibility, located on 11th Street, just south of the US Route 20 Bypass.

Greg Cole, President, is pleased to announce the expansion to Inland customers and the Rockford community. "This expansion is a part of our ongoing commitment to improving our offerings to our customers. It benefits the Rockford community as well, since we will have the opportunity to grow our workforce as we increase our operations in the larger facility."

About Inland Power Group

Headquartered in Butler, WI, Inland Power Group has six sales and service facilities, operating in the Chicago and Milwaukee metropolitan areas, as well as Rockford, IL, Gary, IN, Green Bay, WI, and Iron Mountain, MI. Inland Power Group is a privately owned company providing sales, parts and service for the full line of Detroit Diesel, Mercedes-Benz and MTU engines and Allison automatic transmissions. Inland also offers chassis, suspension, and electrical services on all vehicle makes and models. Inland Power Group also specializes in providing generator sets and associated equipment manufactured by MTU Onsite Energy and GE Jenbacher. More details at www.inlandpowergroup.com.
